

## Mercury recycling program

*SmartComfort, LLC* is proud to be a partner in the national mercury recycling program. If you currently have a thermostat that contains mercury, *SmartComfort, LLC* will include replacing your current thermostat with either programmable, or non-programmable non-mercury based digital thermostat as part of your quote. Should you chose not to install a new heating or air conditioning system, *SmartComfort, LLC* can replace your current thermostat with either a programmable or non-programmable digital thermostat for a nominal fee. *SmartComfort, LLC* will then properly remove your mercury based thermostat and dispose of it in accordance with EPA regulations.

Please refer to our services and fees literature for current pricing.
